

# What Is DreamGlass?

'Dreamglass' are glass dildos made from a material called Borosilicate Glass (most commonly known as Pyrex®). They are non-porous, 100% hypo-allergenic, and one of the safest and most durable types of adult toys available. They can be warmed or cooled to experience different sensations. They warm to your bodies natural temperature more quickly than toys made of other materials. They can be used with any type of lubricant and are easily cleaned.
